

THE BRIGHT FUTURE CAMPAIGN

*A Master Plan for the
Moving Windmills Innovation Center*

WILLIAM'S STORY

A single journey
that sparked
the imagination
of the world.

Since 2008, Moving Windmills
has been unlocking potential and
empowering changemakers
— **from Malawi to the World.**

A large, light-colored silhouette of the African continent is overlaid on the right side of the image. The country of Malawi is highlighted in white, and a small black circle with a white dot in the center marks the location of Kasungu. The text "KASUNGU" and "MALAWI" is placed next to the marker.

KASUNGU ●
MALAWI

What happens when young problem-solvers are given the necessary space, tools, mentorship, grace, and freedom to try, fail, and try again?

RESULTS

- Problem Solving Skills
- Design Thinking
- Innovation
- Appropriate Technology
- Partnerships
- Economic Security
- Community Vitality
- Global Solutions

KUPHUNZITSANA TEACHING THE TEACHERS

“When I am working at the Hubs,
I am learning from people and
they are learning from me.
**We help each other solve
problems.”**

— *Flossy Mtakwire*

“Here in Malawi, young people are helpless. Jobs are limited. Many do not have the opportunity to go to school. **I compare my life before to now and see a big change.**

I have ideas about how to improve my life and how to deal with the problems I see in our communities.

Moving Windmills will change the lives of many young people like it changed my life.”

— *Flossy Mtakwire*

BWERANI TIDYERE PAMODZI **LET'S GATHER AND EAT**

“We believe in the people we are helping. We are united and interdependent people. The projects we are building here in Kasungu are praiseworthy because there is mutual trust and tolerance between us.”

— *Sheila Jere*

“It feels great that my child will see the great things I am doing.

She will always recall that mother was like this. I know because she see this, she will also work hard and work for the good.”

— *Sheila Jere*

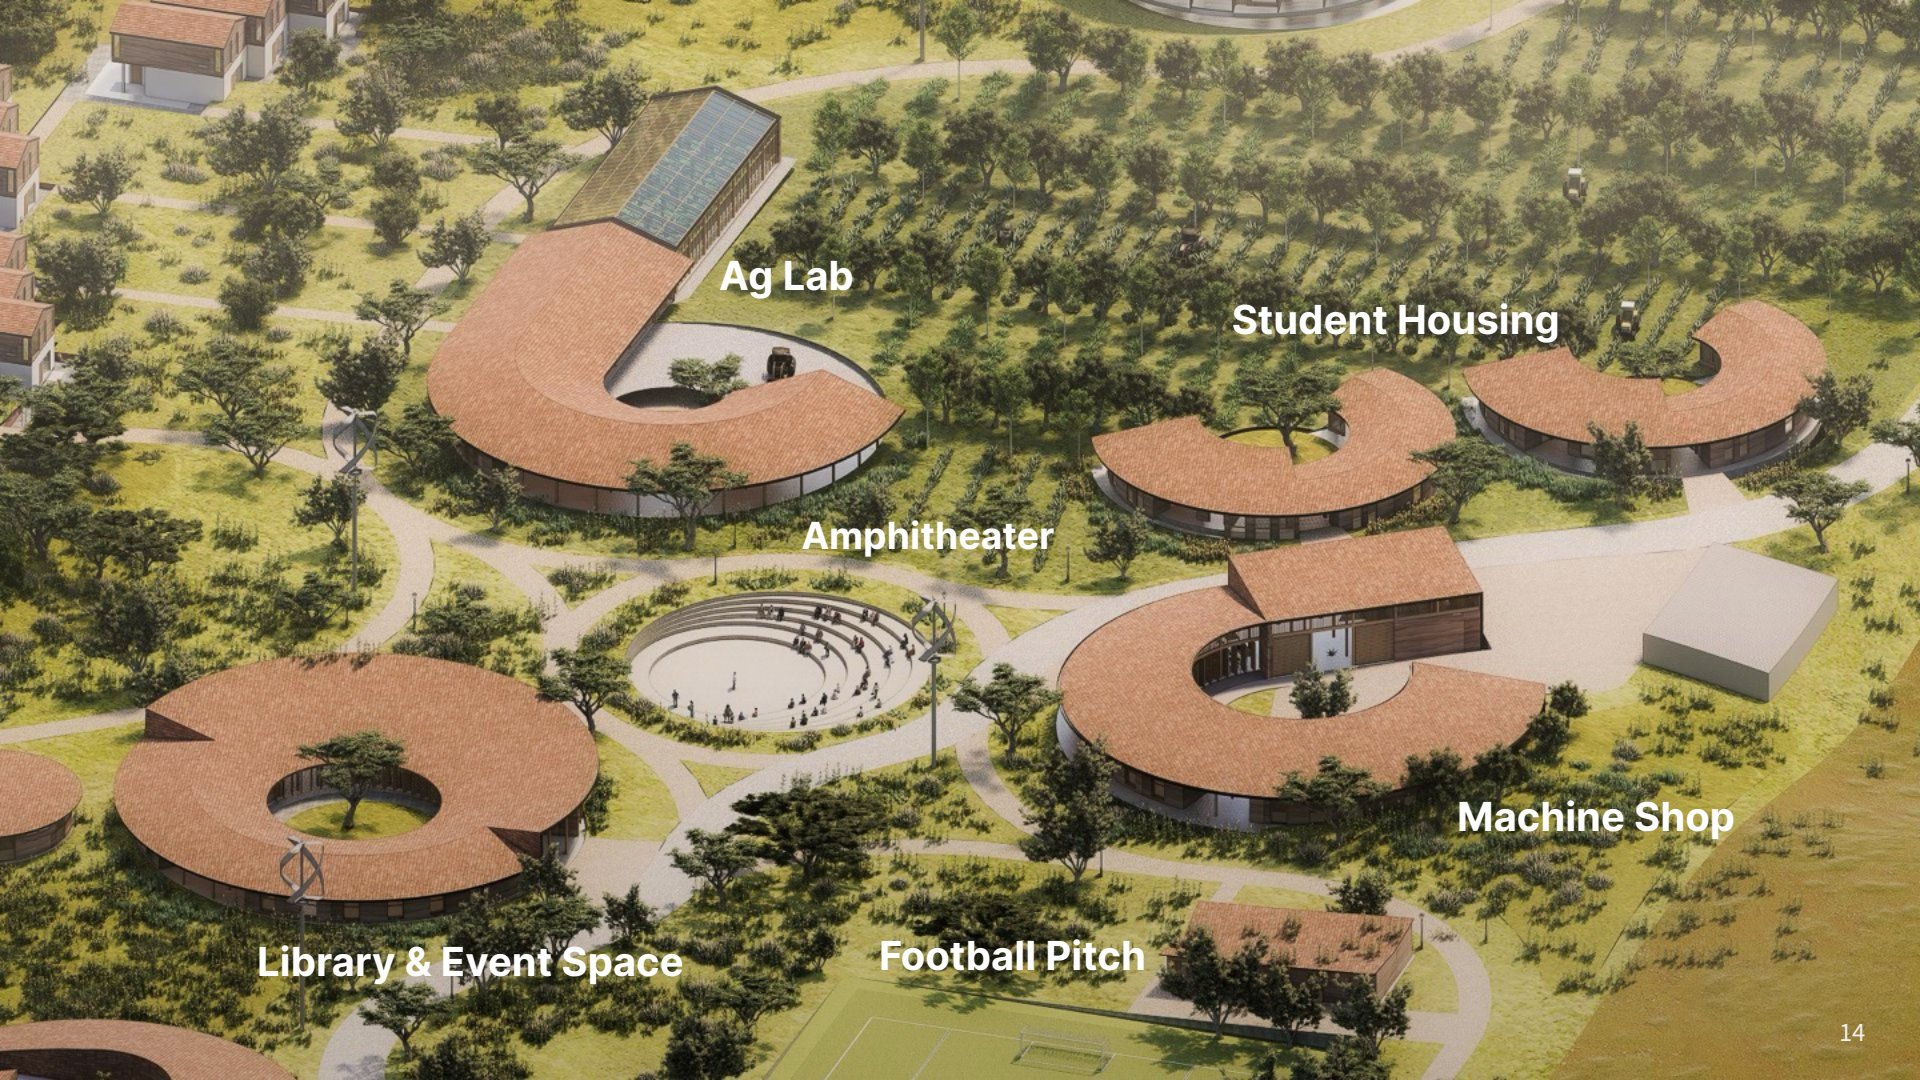

A BRIGHT FUTURE

With a network of resources, infrastructure, programs,
and a team of doers in place,
Moving Windmills is well-poised to create a
new home-base for creative problem-solving in Malawi.

THE FUTURE | Systemic Change

The moving windmills innovation center will have measurable impact and create systemic change at different scales.

Unlock a Generation of Creative Problem Solvers.

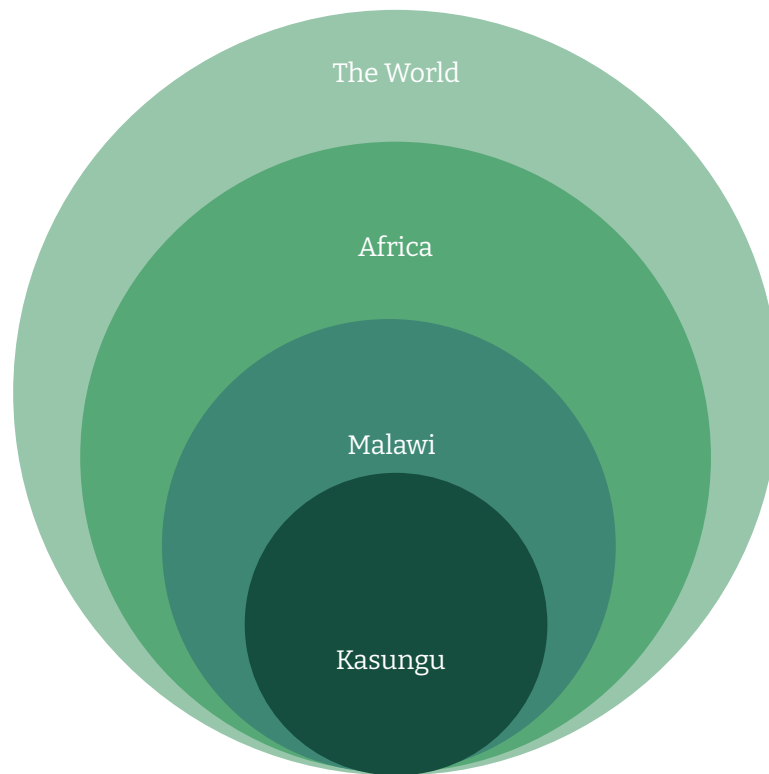

Mindset shifting around existing systems
A new culture that embraces change and the possibilities to try new things with the locally available resources.
Creating a brave culture to test, fail, iterate.

Catalyze other organizations.

Inspire and support other organizations to find better home-grown solutions and explore what the possibilities are using the MW model (processes, operations, innovation, values).

Community-building Institution

Transform and empower the communities being served.

Scale of Impact & Systemic Change

ZIKOMO!
Thank you!

Together, we will empower
a new generation of
creative changemakers
—from Malawi to the world.
