

# THE BRIGHT FUTURE CAMPAIGN

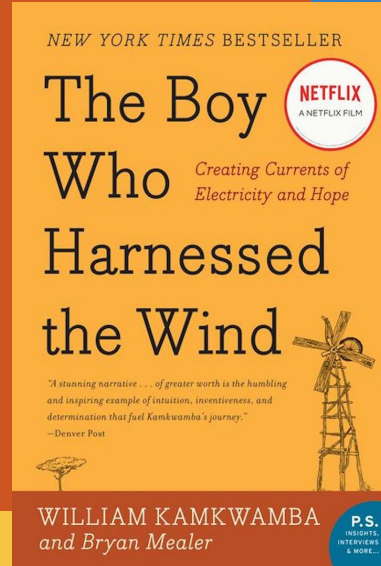

*A Master Plan for the  
Moving Windmills Innovation Center*

**MASS.**

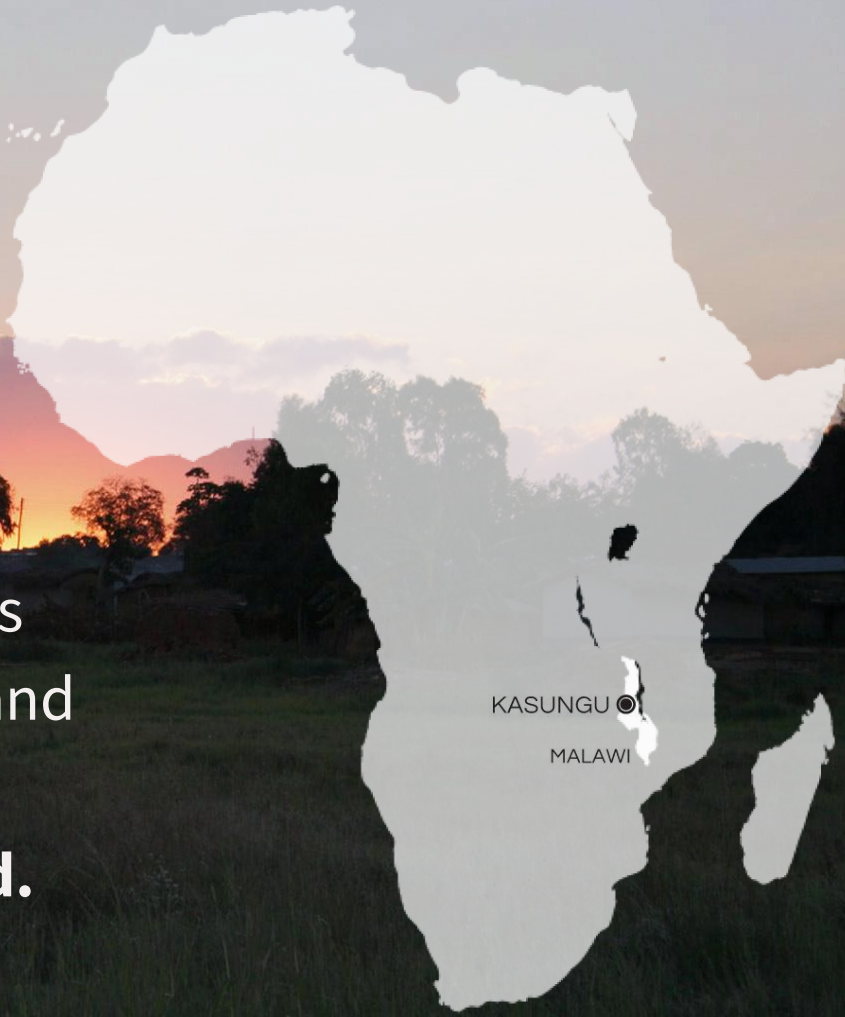

# WILLIAM'S STORY

A single journey  
that sparked  
the imagination  
of the world.

Since 2008, Moving Windmills  
has been unlocking potential and  
empowering changemakers  
— **from Malawi to the World.**

A large, semi-transparent white map of the African continent is overlaid on the right side of the image. Within the map, the country of Malawi is highlighted in a lighter shade. A small black dot with a circle around it marks the location of Kasungu. The text 'KASUNGU' and 'MALAWI' are placed next to this dot.

KASUNGU ●  
MALAWI

What happens when young problem-solvers are given the necessary space, tools, mentorship, grace, and freedom to try, fail, and try again?

## **KUPHUNZITSANA TEACHING THE TEACHERS**

“When I am working at the Hubs,  
I am learning from people and  
they are learning from me.

**We help each other solve  
problems.”**

— Flossy Mtakwire

“Here in Malawi, young people are helpless. Jobs are limited. Many do not have the opportunity to go to school.  
**I compare my life before to now and see a big change.**

I have ideas about how to improve my life and how to deal with the problems I see in our communities.

**Moving Windmills will change the lives of many young people like it changed my life.”**

— *Flossy Mtakwire*

## ***BWERANI TIDYERE PAMODZI*** **LET'S GATHER AND EAT**

“We believe in the people we are helping. We are united and interdependent people. The projects we are building here in Kasungu are praiseworthy because there is mutual trust and tolerance between us.”

— Sheila Jere

**“It feels great that my child will see the great things I am doing.**

She will always recall that mother was like this. I know because she see this, she will also work hard and work for the good.”

— *Sheila Jere*

people who can believe that  
they can take their own

## A BRIGHT FUTURE

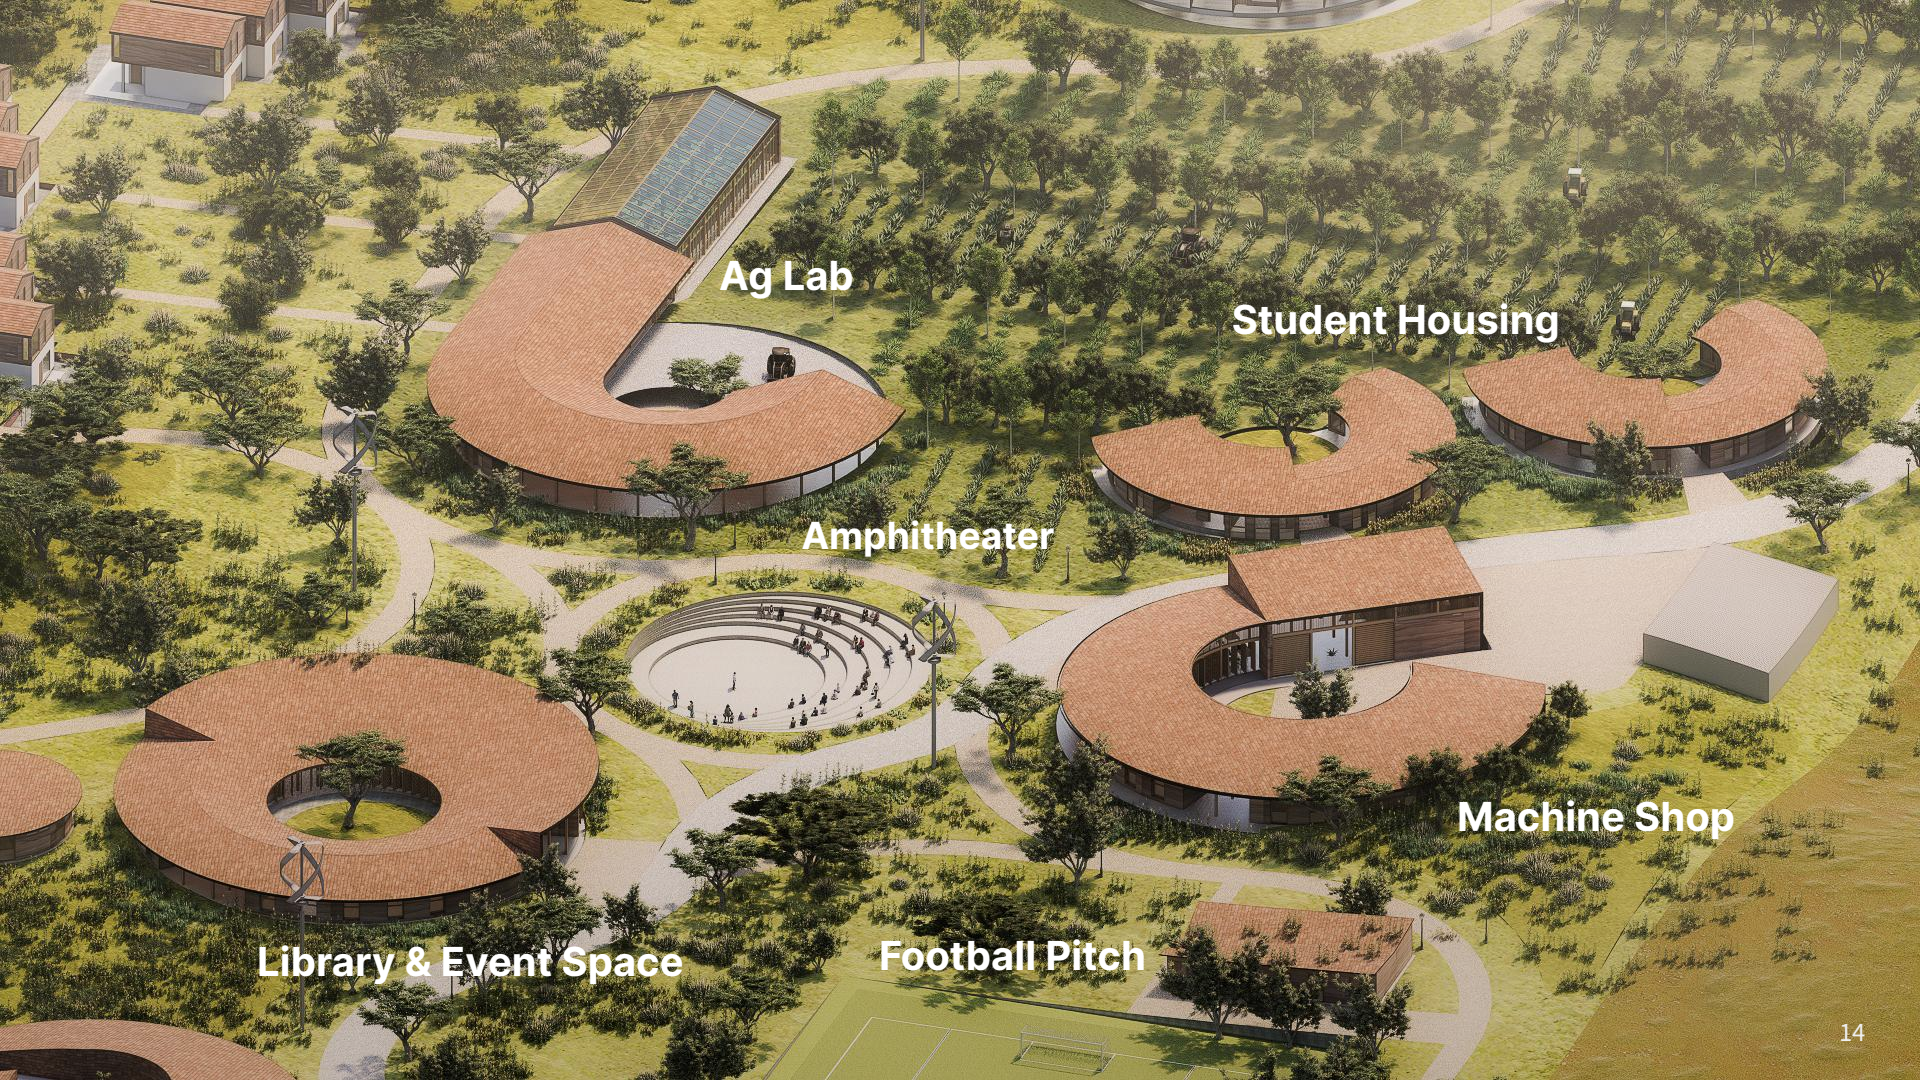

With a network of resources, infrastructure, programs,  
and a team of doers in place,  
Moving Windmills is well-poised to create a  
new home-base for creative problem-solving in Malawi.
